The Sanctuary

Cleeve Prior Chroniclers Photo Archive

The Cleeve Prior Heritage Trust looks after 27 acres (11 ha) of old pasture, traditional orchards, woodland and ponds that have been acquired by the village over the years. A Charitable Trust started in 1997, it is based in the Grade II listed Field Barn. Local volunteers meet every Tuesday from 10.00am until 1.00pm. During that time we carry out a wide variety of jobs depending on the time of the year. From time to time we also undertake projects in order to maintain and develop the asset's. We also organise events at specific times of the year to raise funds whilst at the same time bringing our local community together

The countryside brings us beauty but much more besides. The land is what supports us all. Green trees, green plants make air fit to breathe. Crops and animals feed us and supply our needs. This is too easily forgotten in the age of the city, the supermarket and the computer. We are part of earth; we rely upon her utterly. The Greenlink is about that connection, you and the earth, about Man's stewardship of - and we hope reverence for - this planet. Orchards, meadows, woodlands can be a productive and beautiful legacy for future generations. Every one of us can help care for these places. So as you walk the Greenlink be a participant in, a carer for, your patch - not just a 'consumer' of scenery.
